

## IMPORTANT-PRODUCT SAFETY NOTICE

June 19, 2010

Licensed Electrical Contractors

This letter is to inform you of an important-Product Safety Notice. It impacts Cooper B-line Meter socket Assemblies built from March, 2010 through May 2010. During a recent field installation by an electrical distributor a loose meter socket was identified. **This condition may result in improper function or more seriously, personal injury or property damage.** As a precautionary measure Cooper B-Line is requesting you review and contain inventory within each of your sites for an inspection check of all potentially affected units.

### Product affected:

Use the label located on the product's rating label or carton to confirm the Manufacturing Date. (See example label below)

Below you will find a brief description of the problem, as well as mandatory corrective actions.

**Potential Problem:**

Upon installation of the meter and once the lever is engaged, the meter may not retain into the socket assembly.

**Required Corrective Actions:**

Identify the location for the suspect product. If the product has been provided to other customers, please provide the name and contact information of the customer who purchased the product. Fax or email this information to the attention of Melissa McAllister-Sherman Quality & Continuous Improvement Manager, [melissa.mcallister@cooperindustries.com](mailto:melissa.mcallister@cooperindustries.com) or 903-813-1747.

Please accept our sincere apologies for any inconvenience we may have caused. Cooper B-Line is committed to providing safe and reliable products. You are a valued customer of Cooper B-Line, and we greatly appreciate your cooperation. Should you have any questions regarding this announcement, please free to contact us.

Respectfully,

Boyd Niesen
