CUSTOMER CERTIFICATION AGREEMENT (PLEASE READ CAREFULLY)

I certify that I have purchased and installed the indicated energy-saving products on or after January 1, 2011 for use in the business facility listed above and not for resale. I have attached the itemized proof of purchase (sales slip or invoice). I agree to a verification by a CL&P representative of both the sales transaction and product installation and also allow CL&P access to pre- and post-monitor the installation. Falsifying any of the above information will void this rebate application and any future rebate applications. I agree that to qualify for 100% of the rebate or account credit, I must be receiving a substantial amount of electricity needed by the facility where the equipment is installed, via CL&P's distribution equipment, otherwise the incentive will be prorated by multiplying the full incentive by the percentage of the facility's total electrical needs that is delivered via CL&P's distribution equipment.

REBATE REQUIREMENTS

APPLICATION OFFER: This rebate program covers products purchased and installed on or after January 1, 2011. Details of this program and rebate levels are subject to change or cancellation without prior notice. CL&P reserves the right to cap incentive amounts. Contact CL&P at 1-877-WISE-USE (1-877-947-3873) with any questions. Applications must be submitted by December 15, 2011.

ELIGIBILITY: Rebates are available to commercial and industrial electric service customers of CL&P for existing facilities. Eligible vending machines must: be located indoors, soda machines (i.e., nonperishable items), installed in front of a permanent wall to allow for proper installation of the device, and located in a "low activity" area.

PAYMENT: Rebates will be paid by check or credit to the electric account. We reserve the right to apply rebates to unpaid or overdue accounts. Please allow 60 days for the check or account credit, but processing may take longer if information is missing from the form.

REBATE AMOUNT: In no case will CL&P pay more than 100% of the purchase price shown on the invoice.

PRE-APPROVAL AND VERIFICATION: Rebates exceeding \$2,000 must be pre-and post-inspected. Additionally, CL&P reserves the right to inspect any installation prior to issuing rebates.

REBATE LEVELS: Rebate levels will be "LOCKED IN" for 90 days after pre-approval has been granted by CL&P. If the rebate application is submitted after the 90 days has expired, and the customer was not granted an extension, then the current rebate levels will be used.

TAX LIABILITY: CL&P will not be responsible for any tax liability that may be imposed on the customer as a result of rebate payments. All customers must provide the Federal Tax ID or social security number in order to receive a rebate. We will issue a 1099 to all unincorporated customers receiving rebates in excess of \$600.00.

ENDORSEMENT: CL&P does not endorse any particular manufacturer, product, or system design in promoting the vending machine occupancy sensor.

INDOOR APPLICATIONS ONLY: All rebate products must be installed in indoor applications only.

ISO-NE CAPACITY PAYMENTS: By signing this document and as a condition to receiving a rebate pursuant to this program, customer hereby assigns to its participating electric utility, CL&P, any and all payments, benefits and/or credits in connection with the Forward Capacity Market or any currently existing or successor or replacement markets (including but not limited to any and all "LICAP," "ICAP," transitional credits or other capacity related payments, benefits and/or credits for which customer is eligible) and that are associated with or applicable to customer's participation in the program. Customer agrees to execute any and all documents and/or instruments as requested by CL&P to evidence such assignment. Forward Capacity Market means the market for procuring capacity pursuant to ISO-NE Tariff, FERC Electric Tariff No. 3, Section III, Market Rule 1, Section 13, any modifications to the Forward Capacity Market, or any successor or replacement market/capacity procurement process.

CLASS III CONSERVATION CREDITS: In accordance with the Department of Public Utility Control's ("DPUCs") September 29, 2008 decision in Docket No. 05-07-19RE01, DPUC Proceeding to Develop a New Distributed Resources Portfolio Standard (Class III)-2007 Revisions, Customer is not eligible to receive or retain any Class III conservation credits in connection with the Connecticut Express Service Lighting Rebate Program and Customer hereby acknowledges and agrees the same. Customer further acknowledges and agrees that such credits shall be retained by either CL&P or UI (as the case may be) for the benefit of their customers through the Connecticut Energy Efficiency Fund. In the event that the DPUC amends or modifies the allocation of Class III conservation credits as reflected in its September 29, 2008 decision, then the allocation of such credits utilized by either CL&P or UI (as the case may be) shall be the allocation in effect (per the applicable DPUC decision) on the date that the Customer submitted its rebate application documents to either CL&P or UI (as the case may be).

UTILITY USE ONLY

Efficiency	x Units Installed	= Total
Annual Savings 1,600 kWh		
Lifetime Savings 16,000 kWh
