

THE CONNECTICUT LIGHT AND POWER COMPANY

GENERATION SERVICES

Page 1 of 3

GENERAL:

This Rate may be revised, amended, supplemented or supplanted in whole or in part from time to time according to the procedures provided in DPUC regulations and Connecticut law. In case of conflict between this Tariff and any orders or regulations of the Department, said orders or regulations shall govern.

DEFINITIONS:

"Department" or "the DPUC" shall mean the Connecticut Department of Public Utility Control or its successor.

"Electric Supplier" shall mean "electric supplier" as defined in Section 16-1 of the Connecticut General Statutes.

"Customer" shall mean any person, partnership, corporation, or any other entity, whether public or private, who obtains Distribution Service at a Customer Delivery Point and who is a customer of record of the Company.

"Customer Delivery Point" shall mean the Company's meter or a point designated by the Company located on the Customer's premises.

"Distribution Company" or "Company" shall mean "electric distribution company" as defined in Section 16-1 of the Connecticut General Statutes.

"Distribution Service" shall mean the delivery of electricity to Customers by the Distribution Company.

Beginning in January 1, 2007, the following services will be offered:

- a. "Standard Service" for small customers who do not have a supplier, do not have a demand meter and have a maximum demand of less than 500 kW. Standard Service pricing is intended to provide limited market volatility with prices changing no more frequently than quarterly.
- b. "Last Resort Service" for customers with a demand meter with demand greater than 500 kW. Last Resort Service provides less price protection against market volatility with prices changing monthly.

"Competitive Generation Service" or "Third-Party Service" shall mean the sale of electricity, including ancillary services such as the provisions of reserves, to a Customer by an Electric Supplier.

Effective January 1, 2004  
By Decisions dated Dec. 17 & 19, 2003  
Docket Nos. 03-07-02 and 03-07-01

Effective January 1, 2007  
by Decision dated December 8, 2006  
Docket Nos. 03-07-02RE09 and 03-07-01RE06

STANDARD SERVICE

AVAILABILITY:

Standard Service is available to any Customer who is not receiving electric Competitive Generation Service or Third-Party Service and either does not use a demand meter or has a maximum demand of less than five hundred kilowatts. Any customer with a demand meter and a maximum demand of less than five hundred kilowatts is eligible for Standard Service. Customers on Street and Security Lighting Rate 116, Partial Street Lighting Service Rate 117, and Special Contracts are eligible for Standard Service.

LAST RESORT SERVICE

AVAILABILITY:

Last Resort Service is available to any Customer who is not eligible to receive Standard Service and does not arrange for or is not receiving electric Competitive Generation Service or Third-Party Service.

BILLING:

Each customer receiving Standard Service or Last Resort Service shall receive one bill from the Company, reflecting unbundled charges for their electric service.

TERMINATION OF STANDARD SERVICE OR LAST RESORT SERVICE:

Standard Service or Last Resort Service may be terminated by a customer concurrent with the customer's next scheduled meter read date provided that notice of initiation of Competitive Generation Service by a Electric Supplier is received by the Company two (2) or more business days before the next scheduled meter read date, in accordance with the Company's Terms and Conditions for Electric Suppliers.

If the notice of initiation of Competitive Generation Service by the Electric Supplier is received by the Company fewer than two days before the customer's subsequent scheduled meter read date, Standard Service or Last Resort Service shall be terminated concurrent with the customer's subsequent scheduled meter read date.

There shall be no fee for terminating Standard Service or Last Resort Service.

DEFAULTING ELECTRIC SUPPLIER:

All customers of a defaulting Electric Supplier will immediately be placed on Standard Service or Last Resort Service, as appropriate, and remain there until the customer affirmatively selects another licensed electric supplier. A customer who returns to Standard Service or Last Resort Service as a result of an electric supplier default is exempt from the switching moratorium of six consecutive months for a customer who reverts to Standard Service, or one year for a customer who reverts to Last Resort Service.
