

THE CONNECTICUT LIGHT AND POWER COMPANY

INTERMEDIATE INTERRUPTIBLE SERVICE

RATE 21  
Page 1 of 4

**AVAILABILITY:** This rate is available to any primary voltage customer who, by contract, agrees to interrupt a connected load of at least 300 kilowatts above the customer's Firm Contract Demand (defined below) during periods when the Company requests such interruptions because of capacity deficiency, system or local emergencies, or an ISO-NE demand response or audit call. The Company's Mandatory Reduction Rider is an availability requirement.

This rate is not available to new applications after February 5, 1999.

**DEFINITIONS:** Interruptible Contract Demand is the maximum connected load subject to interruption.

Firm Contract Demand is that level of demand, measured in kilowatts, below which the customer expects to receive firm service. Firm Contract Demand may be zero. Firm service (if any) shall be provided under the applicable firm service rate schedule, and all kilowatt-hour sales at demand levels up to the Firm Contract Demand shall be billed under that rate schedule. All other kilowatt-hour sales shall be billed at the Energy Charge as described below.

During the term of this contract, the customer may, on thirty (30) days written notice to the Company, increase the Interruptible Contract Demand or the Firm Contract Demand. The customer may upon not less than three (3) months' prior written notice to the Company, decrease:

- (A) the Interruptible Contract Demand to reflect lower load levels resulting from demonstrable conservation and load management;
- (B) the Firm Contract Demand by increasing the Interruptible Contract Demand by an equivalent amount, or by the result of demonstrable conservation and load management or economic/business reasons of a long-term nature, unless the customer has exceeded the sum of the Interruptible Contract Demand and the Firm Contract Demand as described below.

Under no conditions shall the customer be allowed to decrease the Firm Contract Demand to circumvent the conditions of this Rate.

If the customer's demand in any hour exceeds the sum of Firm Contract Demand (if any) plus Interruptible Contract Demand, then the customer's demand minus the Interruptible Contract Demand shall be deemed to be a new level of Firm Contract Demand, which shall determine the demand charges of the applicable firm service rate for the remaining term of the contract for service under this rate schedule, or two (2) years, whichever is greater.

MONTHLY CHARGES:

CUSTOMER CHARGE: \$1,000.00

FACILITIES CHARGE: per kW of Interruptible Contract Demand:

    Primary Service:  
    Four-hour notice \$5.50

    Secondary Service: Primary Service plus \$1.00

ENERGY CHARGE: For all kWh, equals the Generation Service rate per kWh under Supplier Service Options below.

DELIVERY SERVICES CHARGE:

CHARGE PER kWh \$0.01032

FMCC DELIVERY CHARGE:

CHARGE PER kWh \$0.00172

FMCC GENERATION CHARGE:

CHARGE PER kWh \$0.00450

ENERGY CHARGE will be waived for customers receiving supplier services from a supplier other than the Company.

RATE ADJUSTMENTS: Customers taking service under this rate schedule shall be subject to all applicable charges as provided in the Company's Energy and Transmission Adjustment Clauses.

CHARGES INCLUDED IN THE ABOVE RATES, ON AN EQUIVALENT PER-KWH BASIS:

Transmission	\$0.00798 per kWh
Systems Benefits Charge	\$0.00135 per kWh
Competitive Transition Assessment	\$0.00933 per kWh
Conservation Charge	\$0.00300 per kWh
Renewable Energy Charge	\$0.00100 per kWh

SUPPLIER SERVICE OPTIONS:  
(as per the Generation Services tariff)

GENERATION SERVICE: STANDARD SERVICE  
(max demand less than 500 kW)

CHARGE PER kWh \$0.12276

GENERATION SERVICES: LAST RESORT SERVICE  
(max demand equal to or greater than 500 kW)

CHARGE PER kWh:	July 2009	\$0.07783 per kWh
	August 2009	\$0.07707 per kWh
	September 2009	\$0.06946 per kWh

THIRD-PARTY SERVICE as per contract

DISTRIBUTION CHARGE equals the total charge less the above equivalent per kWh charges.

COMBINED PUBLIC BENEFITS CHARGE:

Pursuant to Conn. Agencies Regs. § 16-245-1(a)(2)(A) the Systems Benefits Charge, the Conservation Charge, and the Renewable Energy Charge are combined for billing purposes into the Combined Public Benefits Charge effective January 31, 2006.

COMPETITIVE TRANSITION ASSESSMENT COST ADJUSTMENT:

Competitive Transition Assessment (CTA) charges and terms under this rate include a CTA Cost Adjustment Charge set in accordance with the Company's CTA Cost Adjustment.

SYSTEMS BENEFITS COST ADJUSTMENT:

Systems Benefits service charges for all customers taking service under this rate shall be set in accordance with the Company's Systems Benefits Cost Adjustment.

THE CONNECTICUT LIGHT AND POWER COMPANY

INTERMEDIATE INTERRUPTIBLE SERVICE

RATE 21  
Page 4 of 4

**NOTICE OF INTERRUPTION:** Upon Company notification, customers have four (4) hours to achieve their Firm Contract Demand. Failure to reduce demand to the Firm Contract Demand shall result in actions as per FAILURE TO INTERRUPT as described below. Interruptible load enrolled in the Mandatory Reduction Rider's Direct Enrollment program will receive the appropriate 30-minute or 2-hour ISO-NE's notice to implement load reduction.

**FAILURE TO INTERRUPT:** In the event the customer fails to reduce load to the Firm Contract Demand at the time and for the period specified by the Company, the customer's demand in excess of the Firm Contract Demand shall be deemed as establishing a new level of Firm Contract Demand, which shall determine the charges of the applicable firm service rate for twelve (12) months.

**LIMITS OF INTERRUPTION:** Interruptions will be limited to no more than five (5) times per calendar year, and for a minimum of four (4) hours per interruption.

**INTERRUPTION CRITERIA:** Company call(s) to interrupt load will be triggered by ISO-NE's Action During A Capacity Deficiency Operating Procedure No. 4. The Company reserves the right to call to interrupt load due to system or local emergencies.

**METERING:** The Customer Charge for this rate contemplates hourly metering only. In the event the Company, or any agency having jurisdiction, determines that telemetering and/or automatic control equipment is required, such equipment shall be installed and maintained by the Company at the customer's expense. Such expense shall also include the costs of any dedicated communication lines or auxiliary facilities associated with telemetering and/or control.

**TERM OF CONTRACT:** Service under this rate schedule may be terminated with at least one (1) month prior written notice by the customer or six (6) months prior written notification by the Company.
