

THE CONNECTICUT LIGHT AND POWER COMPANY
RIDER N – CLASS I RENEWABLE AND HYDROELECTRIC
SELF-GENERATOR NET ENERGY BILLING SERVICE

Page 1 of 2

AVAILABLE to any Class I renewable energy resource or hydropower facility whose generating capacity is less than or equal to 2,000 kilowatts.

APPLICABLE to customers receiving service under Rates 1, 5, 7, 27, 30, 35, 37, 40, 41, 55, 56, 57 or 58.

MONTHLY RATE:

As determined under the applicable tariff but not less than the minimum charge of the applicable rate. Net energy billing shall be performed monthly, and payments for excess sales to the Company shall be made on an annual basis, for the period from April of each year to March of the following year.

During an annual period, if energy sold to the Company in any month exceeds energy purchased, the excess sales will first be credited to the customer in that month and any remaining net sales will be carried forward for crediting on a per kWh-basis in the next month. This procedure will commence with the April billing period and continue monthly through the March billing period. Any excess kWh remaining at the end of an annual period shall be paid at that time according to the following schedule:

<u>Resource</u>	<u>Annual Reimbursement Price</u>
Photovoltaic	Average hourly Connecticut ISO-NE real time locational marginal price, (RT-LMP), for the hours 10 a.m. to 4 p.m. during the annual period.
All Other	Average hourly RT-LMP, for all hours during the annual period.

Payment shall be determined by multiplying any excess sales remaining at the end of the annual period by the appropriate annual reimbursement price described above. RT-LMP shall be adjusted for line losses, consistent with Alternative A of the Company's Rate 980 tariff.

Excess sales shall be set to zero at the beginning of each annual period.

INTERCONNECTION REQUIREMENTS:

The installation of a generation system that will interconnect with the Company's electric distribution system requires the approval of the Company. The owner of the generation system is required to file an interconnection application with the Company and to comply with the applicable requirements contained in The Connecticut Light and Power Company Guidelines for Generator Interconnection.

TELEMETERING REQUIREMENT:

A customer on Rate 7, Rate 27, Rate 37, Rate 40, Rate 41, Rate 55, Rate 56, Rate 57 or Rate 58 agrees that it is necessary to install telemetering equipment for the Company to read the meter(s). The location of such facilities shall be at the sole discretion of the Company. The customer will choose to either provide a dedicated direct dial analog phone line or elect for the Company to connect to their existing phone line. The provision of a suitable dedicated direct dial analog telephone line in the reasonable proximity of the electric meter as determined by the Company's specifications is the sole responsibility of the Customer. The customer shall be the owner of all telephone lines and shall maintain them in operable condition at all times. The Company will be responsible for the installation and maintenance of the connection between the telemetering equipment and the customer's telephone line.

TERM of CONTRACT:

Customers electing service under this rider must remain on the rider for at least 12 consecutive months.
