The Northeast Utilities System

*Leading with energy*

**Connecticut  
Light & Power**

The Northeast Utilities System

**Lightning-related power surges**, as well as electrical transients or spikes caused by downed utility poles or other sources, can cost you money by “crashing” your computer, erasing the stored numbers in your fax and phone answering machines and damaging expensive entertainment systems and appliances. You can help protect your home from damaging surges with HomeGuard’s **two levels of surge protection**. First, HomeGuard blocks surges from entering your home with a **special device** a qualified CL&P technician will install at your electric meter. Second, you’ll receive **high-quality plug-in strips** to provide a second level of protection for your television, computer and other electronic equipment. HomeGuard Surge Protection from CL&P affords an effective, warrantied\* solution to safeguard major appliances, televisions, and phones as well as your stereo system, fax machine, and computers.

*HomeGuard’s protection is so effective it comes with a 15-year manufacturer’s warranty.\* It covers the system itself and will pay for repair or replacement of qualified connected appliances and electronic devices in the event they are damaged by surges.*

**For a one-time installation fee of \$62 and a \$4.95 monthly fee**, included on your CL&P bill, you’ll enjoy peace of mind regardless of what’s brewing outside your door.

To order or learn more about HomeGuard, visit CL&P’s Web site at **cl-p.com**, call us at **888-562-0067** or use the **order form** provided on back.

***HomeGuard® provides greater protection than the individual surge strips you can buy at retail stores because it includes a unique, primary level of protection to stop surges at your electric meter by diverting excess voltage before it can enter your home and travel through your electrical circuits.***

\* Warranty provided by manufacturer, EFI Electronics, Inc., and subject to specified terms and limits. Warranty information available at cl-p.com or by calling 888-562-0067.

HomeGuard® is available to customers with 200 amp service or less.
