

Providing the Information You Need About Electric Vehicles

**Western Massachusetts
Electric**

A Northeast Utilities Company

Western Massachusetts Electric has established a new electric vehicle information center where you can get the information necessary to make an informed decision about electric vehicles and electric vehicle charging technology.

Visit our new web site, wmeco.plugmyride.org, for more information including what you need to know about electric vehicles, what questions to ask before making a purchase and other items you may consider.

If you would like to speak with a representative in our Electric Vehicle Information Center, call **855-463-6438** (**855-INFO-4EV**), Monday through Friday from 8 a.m. to 5 p.m.
