

Your facility may qualify for a comprehensive energy analysis, lighting upgrades, insulation, air sealing and other energy saving measures. For more information, please call 800-594-7277.

### Income Eligible Program

If you currently receive WMECo's Discount Rate, you may be eligible for a free home energy consultation, which may include the installation of conservation measures and refrigerator metering. If you qualify or would like more information, please contact your local Community Action Agency or call 866-527-7283.

\* Please note all programs are subject to change. More information, including energy saving tips, rebate forms and in-depth program requirements can be found on [www.wmeco.com](http://www.wmeco.com).

## Energy Efficiency Programs

### Mass Save® Home Energy Services

Through the Mass Save Home Energy Services Program eligible customers can take advantage of a no cost Home Energy Assessment and receive instant energy saving products, customized energy saving recommendations, and generous incentive offers including 75 percent up to \$2,000 on the cost of insulation improvements.

The assessment includes an analysis of your home's energy use and advice for saving energy. The program also offers generous rebates for eligible high efficiency heating and hot water equipment.

Schedule your assessment today! Call 866-527-7283 or visit [www.MassSave.com](http://www.MassSave.com) for more information.

## ENERGY STAR® Lighting & Appliances

When shopping for new lighting and appliances, make sure to look for the ENERGY STAR label. WMECo offers rebates on ENERGY-STAR qualified refrigerators, freezers, room air conditioners, air cleaners and lighting.

For more information about available rebates and special offers, visit [www.MassSave.com](http://www.MassSave.com) or call 877-378-2748.

## Refrigerator & Freezer Recycling

Did you know your old, second refrigerator or freezer costs up to \$150 a year to run? If you are looking to get rid of your second refrigerator or freezer, let Western Massachusetts Electric pick it up and we'll give you \$50. The refrigerator or freezer will be recycled into new products, keeping materials out of landfills while also saving you energy and money.

Each participating household is limited to pick-up and rebates for two units. The refrigerator or freezer must be picked up at your WMECo service address. Visit [www.MassSave.com/recycle](http://www.MassSave.com/recycle) or call 877-545-4113 to learn more or to enroll.

## Advanced Power Strips

Did you know many electrical devices continue to use electricity even when they are off? Advanced Power Strips (APS) sense when the power is off on one device (such as a home computer) and

automatically cuts power to other devices (such as printers, monitors and other peripherals)—saving electricity.

WMECo customers are eligible for up to a \$15 instant rebate (limit of two APS' per customer). Visit [www.estarlights.com/aps](http://www.estarlights.com/aps) for more information or to order.

## Cool Smart Central Air Conditioning

ENERGY STAR-labeled central air conditioning units, when properly installed, can save you up to 20 percent on your cooling costs. To help with the purchase of a new ENERGY STAR central air conditioner, WMECo is offering a mail-in rebate of up to \$500 for the purchase and installation of high efficiency central air conditioning units and air source heat pumps that meet or exceed eligibility requirements.

For more information on the program offerings and a list of participating contractors, call 800-473-1105 or visit [www.MassSave.com](http://www.MassSave.com).

## Multi-Family Assessment Program

Are you the owner or operator of a multi-family apartment or condominium facility, with five or more dwelling units? If so, your facility may be eligible to participate in the Multi-Family Assessment Program.

This program provides services to the entire complex through coordination with the owner, facility manager, or condominium association.
